

## **TARAMA WATER (V.O.W. - Vital Organic Water) High Energy Pi( $\pi$ )-Water (Pi-Water Concentrate)**

### **User Guide**

TARAMA WATER(V.O.W.) is a health drink which is created by the “Pi( $\pi$ )-Water Technology”, induced from the excited(highly energized) state of very small amount of iron(ferric ferrous salts) ions, found from living body water.

High-energy Pi( $\pi$ )-Water palpates activation of living matters, and adjusts the balance of the negative and positive state. It is the water with high active bio-energy, extremely close to water in living organisms.

TARAMA WATER(V.O.W.) is water within a cell that supports the cell membrane, chlorophyll, mitochondria, nucleus, and the DNA, which are part of a living body. Furthermore, it features similar mechanism to body fluid such as the blood and lymph.

TARAMA WATER(V.O.W.) features the maintenance effect for living matters with the process of ferric ferrous salts, activates the memory possessed by Pi( $\pi$ )-Water, and reenacts the effect within the interior.

#### ◆ The major features of TARAMA WATER(V.O.W.)

- ① It plays a role of protecting living body from harmful substance by suppressing oxidation and disintegration (Neutralizes harmful active oxygen : anti-oxidation action, Control ionization), and preserves the characteristics of calcium (Calcium antagonism),
- ② It protects the normal cell, and conducts the action of making abnormal cell normal (promotes cell activation),
- ③ It records the information on the biological activity, and conducts the action to activate biological activity in the living body (strengthens immunity).

Pi( $\pi$ )-Water enhances the immunity of human body, and enables natural healing effect.

◆ Effects of TARAMA WATER (when properly used)

1. Normal growth.
